

Hi, I'm Workerbee.

I help services teams win more business without blowing up margins.

Staffing readiness drives revenue on every deal:

- A deal is ready to close, but staffing isn't confirmed
- Timelines tighten before teams are locked in
- Leaders rely on personal networks to fill gaps
- Recruiters get pulled in late – at premium cost

I help you lock in staffing early so you win with confidence

- Talent is identified and aligned before roles open
- Interest and availability are confirmed in advance
- You're not guessing whether you can actually staff the work

Different staffing models come with very different cost structures.

Recruiters

- \$20k-\$40k/hire
- Engaged late at premium costs

In-House

- \$80k - \$120k per recruiter/yr + tools
- Fixed cost, uneven hiring

Job Boards

- \$10k-\$40k/year
- High volume, heavy screening

Workerbee

- From \$3k/year
- No per-hire fees
- Builds reusable pipeline value

When agency hits, margins shrink. I help you lock in staffing before revenue is at risk.

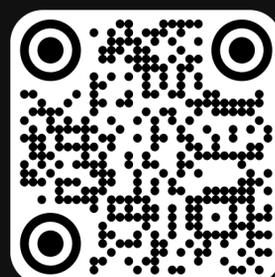

You stay in control.

- Win work you would've passed on
- Start delivery when customers expect you to
- Avoid last-minute recruiter fees
- Protect margins while winning more revenue

Less screening. Better hires. More revenue.

Ready candidates. No applicant flood.
